

Do not weaken Wisconsin's No-Call laws. In fact, I feel that Wisconsin's law should be even more restrictive and impose higher monetary penalties on any violators. I do not want bankers to be exempt from this law. I am sick of getting unwanted calls from ALL telemarketers. I do not want any. I have had to incur extra costs to have Caller ID on my phone to screen calls from unwanted callers such as telemarketers. They invade my privacy. Have them use the postal system so they can support that system and I can dispose of their trash without having them invade my privacy.
